ali shojaei

Ali Shojaei / Front-End Developer & Web Designer

Front-End Engineer specializing in high-performance web applications with 4+ years of experience architecting immersive digital experiences. Leverages cutting-edge tools Creative and detail-oriented Front-End Developer with solid experience in web design and development. Skilled in crafting responsive websites and interactive user interfaces using modern web technologies like React, Vite, Tailwind CSS, and Three.js. Passionate about delivering clean, scalable, and maintainable and 3d code

Education

Bachelor of Visual Arts

From October 2017 to October 2022 University of art, esfahan Esfahan, ES, Iran

✓ Digital Media Design✓ Interactive Art Installations✓ Color Theory & Visual Composition

Work experience

Front-End Developer

From 2020 to 2021 Gachia.net web developer

I trying to Leveled up website performance like a boss - crushed loading times by 40% through image optimization and code minification. Built 10+ responsive sites that actually look good on any device (yes, even that old iPhone 6). Made JavaScript do things my designer never thought possible. Basically turned websites into speedy, modern experiences that users actually enjoy browsing.
Key Improvements:
✓ Turbocharged page speeds from 5s → 2s through lazy loading
✓ Nailed 95+ Lighthouse scores by fixing render-blocking resources
✓ Made sites so responsive, even my grandma could use them perfectl

Web Developer

From 2021 to 2022 CafeAamozeshgah web developer

Built and deployed custom websites and bots for clients. Maintained existing websites and improved user experience. Transformed clunky websites into smooth, fast experiences – like giving them a shot of espresso! Built 15+ custom sites and bots that actually. Fixed those annoying loading spinners that made users rage-quit – slashed wait times by 35% by optimizing scripts and media. Even made a few legacy sites feel fresh with CSS magic and lazy loading tricks."
Key Wins:
✓ **40% faster page loads** by nuking bloated plugins and compressing assets
✓ **Zero crashes** after rebuilding fragile WordPress backends
✓ **Happy clients** who stopped emailing "WHY IS THIS BROKEN??" at 3 AM

Full-Stack Web Developer

From 2022 to 2024 Shamim Ertabet fullstackdeveloper

Led front-end and back-end development projects using React and Django. Designed, developed, and maintained corporate websites and admin dashboards. Built camera-focused web apps that don't suck – made live streams buttery smooth and uploads 3x faster. Killed that annoying 10-second delay when viewing security feeds. Basically turned pixelated messes into Netflix-quality streams with some Python/Django magic and frontend tricks."
Pro Moves:
✓ **70% faster video loading** by optimizing H.264 encoding
✓ **Zero buffering** after rebuilding the streaming architecture
✓ **Happy admins** who can now actually recognize faces in footage
Tech Flex:
• Django backend that handles 100+ concurrent streams
• React frontend with real-time motion detection
• Custom CDN setup that made our AWS bill 40% cheaper
